**JACK-UP FLOATING FLOOR USING EMBEDDED BELL-SHAPED HOUSING**

Stravifloor Jack-up-E is a jack-up isolated floating floor system using molded rubber bell-shaped cast iron housings cast into concrete and jacked up after the concrete has cured to provide the required void depth.

**Features**

- High Performance: Meets and exceeds all applicable codes and standards.
- Easy Installation: The patented jack-up system is easy to install and provides a secure, level floor.
- Acoustic Performance: Provides superior sound absorption and sound isolation.
- Quality Assurance: Manufactured in a state-of-the-art facility with strict quality control.

**DataKustik**

**A unique software system for extended acoustic analysis and prediction.**

DataKustik is the leading software development company offering state-of-the-art solutions in the field of acoustic modeling. Chosen from several software solutions including:

- **Castell** for the calculation of noise outdoors
- **Castell** for the calculation of sound transmission between rooms
- **Castell** for the assessment of sound distribution indoors

Although each software is based on its specific field of application, they can be connected to form a powerful package for extended calculations from the outside to the inside and vice versa. For any type of acoustic calculation, from sound propagation outdoors to the assessment of indoor sound, choose DataKustik. For more information about DataKustik products, contact our Scantek for expert and responsive sales and support.

**SOUND. THAT WORKS.™**

FOR PRODUCTIVE EMPLOYEES

**EMPOWER YOUR FACILITY'S FULL POTENTIAL TO HELP EMPLOYEES WORK, LIVE AND FEEL THEIR BEST!**

Office acoustics is often an afterthought from the perspective of those who design both commercial and residential. However, good acoustic workspaces are essential for productivity and employee well-being.

With the right acoustic solutions, you can create a productive, healthy and happy workplace. LogiSon Acoustic Network is a proven solution for creating a productive, healthy and happy workplace. A quiet workplace not only leads to better work, but also to better lives.
